As part of the Santa Paula community, we invite you to *get involved and participate* in our Community Wellness Fair! We would like for everyone to participate as we address the needs of our student's health.

The District's primary responsibility is to provide a high-quality curriculum and instructional program in a supportive and effective learning environment that enables all students to learn. According to our Board Policy 5030 (a)

The Governing Board of the district believes that good health fosters student achievement and student attendance. The Board recognizes the link between student health and learning and desires to provide a comprehensive program promoting healthy eating and physical activity for district students. The Board believes that community participation is essential to the development, implementation, and success of this wellness policy. The Board has adopted goals for nutrition education, physical activity, health services, and other school-based activities that are designed to promote student wellness.

As part of our effort to address the health needs of students, the Santa Paula Elementary School District is hosting a Community Wellness Fair on May 19, 2012. It is our hope to educate students, parents, and our community about the importance of leading a healthy life style!

Therefore, we are looking for individuals and organizations to help us promote healthy living. If you are interested in sponsoring, setting up a display to distribute health information, promote health services, set-up a demonstration and/or a presentation at this Wellness Fair; please contact Jeremy Schoengart, Director of Child Nutrition Services at (805) 933-8838 jschoengart@spesd.org or Michelle Kolbeck, Board Member mkolbeck@spesd.org to reserve a location at our Wellness Fair.

We look forward to hearing from you and having you help us promote a healthy life for the community of Santa Paula.

Sincerely,
